4

Diagram 4 illustrates the mounting of the door handle. The process is divided into three steps:

- 4a:** The handle is inserted into the door.
- 4b:** The handle is secured with a screw.
- 4c:** The handle is adjusted with a screwdriver.

A level is used to ensure the handle is straight. The diagram also shows a close-up of the handle being secured with a screw.

6

Diagram 6 illustrates the final step of mounting the sink. The sink is lowered into the cabinet cutout. A hand is shown applying silicone sealant to the top edge of the cabinet using a syringe. An inset shows a warning triangle and two types of faucet handles. Another inset shows a syringe labeled 'SILICONE' and a warning triangle that says 'NO ACETIC'.

7

The diagram illustrates the final steps of installing a sink into a cabinet. It is divided into two main sections, 7a and 7b, which are connected by dashed lines to the main assembly view on the left.

Section 7a: This section shows a hand lowering the sink into the cabinet. An arrow points to the sink, labeled '7a'. A small inset shows a close-up of the sink's front edge being guided into the cabinet's front panel.

Section 7b: This section shows the sink being pushed into the cabinet. An arrow points to the sink, labeled '7b'. A small inset shows a close-up of the sink's front edge being pushed into the cabinet's front panel, with a 'CLICK' sound effect indicated by a speech bubble.

Recomenda-se a utilização de produtos de limpeza com pH neutro
